Abbott IMxTM immunoassay analyser for gonadotropins, 296(SC)
Activated partial thromboplastin time for automated techniques, two reagents compared, 321(OA)
Ageing process, and nutrition, 278(A)
Agriculture-related anaemias, 345(A)
Alloantibody, red cell, race-related problems, 158(A)
Anaemia(s)
  agriculture-related, 345(A)
  sickle cell, fructosamine estimations, Saudi Arabs, 332(OA)
1,5-Anhydro-D-glucitol, serum assay by high performance anion exchange chromatography, 18(OA)
Anti-HBc assays, evaluation of end-point sensitivity and performance, 341(OA)
Antibody-dependent cell-mediated cytotoxicity assays, monocyte isolation by flow cytometer-monitored centrifugal elutriation, 35(OA)
Antimicrobial agents, *in vitro* activities against *Proteus* species from clinical specimens, 94(OA)
Antioxidants
  nutrition and the ageing process, 278(A)
  nutritional supplements, and life-threatening diseases, 288(A)
Atrial natriuretic peptide, molecular forms in transplanted heart, 316(OA)
Automated techniques, activated partial thromboplastin time for, two reagents compared, 321(OA)
Automation in cervical screening, 171(*abs*)

Bacillus Morgan, isolation in summer diarrhoea in children: *57 years ago*, 123
Beta-haemolytic streptococci, rapid differentiation of *S. milleri* from, by simple screening tests, 1(OA)
Blood donors, detection of HCV-RNA, Yorkshire, 215(OA)
Blood group, race-related red cell alloantibody problems, 158(A)
Blood grouping and direct matching of blood, elimination of error: *48 years ago*, 220
Blood sugar estimation, Hagedorn-Jensen method: *59 years ago*, 277
Bone marrow processing for transplantation, comparative study of two methods: *thesis abstract*, 181
Bone wax, foreign body reactions and associated histological artefact due to, 14(OA)

Brain natriuretic peptide, molecular forms in transplanted heart, 316(OA)

Campylobacter jejuni, pathogenesis, 57(A)
Cancer
and diet, 189(LA)
putative role of dietary trace elements, 241(A)
Cardiac transplantation, molecular forms of brain and atrial natriuretic peptides in transplanted heart, 316(OA)
Cellular pathology, some recent advances, 168(BU)
Centrifugal elutriation, monocyte isolation by, 35(OA)
Cereals and cereal products and health promotion, 260(A)
Cervical screening, automation, 171(*abs*)
Chlamydia trachomatis detection by immunofluorescence, comparison of two methods of slide preparation, 172(SC)
Cholesterol and lipoprotein(a) as risk factors for coronary heart disease in elderly subjects, 114(OA)
Chromogenic assay, microtititre plate, in development of monocyte procoagulant activity, 328(OA)
Clinical Chemistry Paper of the Year Award, announcement of result for 1993, 17
Cobalamin deficiency and malnutrition, 221(A)
Cold vapour atomic absorption spectrometry method for measurement of mercury in biological samples, development: *thesis abstract*, 181
Complement fixation test, of viral, mycoplasmal and chlamydial lower respiratory tract infections, Hong Kong, 9(OA)
Coronary disease, and diet, 189(LA)
Coronary heart disease
in elderly subjects, cholesterol and lipoprotein(a) as risk factors, 114(OA)
putative role of dietary trace elements, 241(A)
Cost benefit analysis of lower respiratory tract infections, Hong Kong, 9(OA)
Creatinine dextrose bromothymol blue thymine medium, in differentiation of *Cryptococcus neoformans* serotypes A and D, 100(OA)
Cross-reactivities, unexpected, in drug abuse screening with immunoassays, 136(RA)
Cryptococcus neoformans, serotypes A and D, differentiation using creatinine dextrose bromothymol blue thymine medium, 100(OA)

Design of drugs, and transcription factors, 147(RA)
Diagnosis, potential pitfalls caused by blood film artifacts in prolymphocytic leukaemia, 371(SC)
Diagnostic molecular biology, 170(*abs*)
Diarrhoea, summer, isolation of *Bacillus Morgan* in children: *57 years ago*, 123
Diet
and agriculture-related anaemias, 345(A)
and disease, 189(LA)
and immune function, 252(A)
and nutrition and palliative care, 271(A)
role in osteoporosis, 358(A)
Dietary supplementation and immunocompetence in housebound elderly subjects, 128(OA)

DNA
fingerprinting, 87(*abs*)
hepatitis B virus, hybridisation analysis, 336(OA)
recombinant, technology, introduction, 73(*abs*)
Drug abuse screening with immunoassays, unexpected cross-reactivities and other pitfalls, 136(RA)
Drug resistance, and antimicrobial agents activities against *Proteus* species, 95(OA)

Elderly subjects, housebound, dietary supplementation and immunocompetence, 128(OA)
Enzyme histochemistry and immunocytochemistry, quantification, 170(*abs*)
Epstein-Barr virus infections, detection in clinical histopathology, 169(*abs*)
Escherichia coli 0157:H7, recovery from mixed suspensions, evaluation and comparison of pre-coated immunomagnetic beads and direct plating, 207(OA)

Factor VII, recombinant, 86(*abs*)
Filter paper blood specimens, antibodies to *Toxoplasma gondii* in eluates, 104(OA)
Flow cytometer-monitored centrifugal elutriation, monocyte isolation, preparative tool for antibody-dependent cell-mediated cytotoxicity (ADCC) assays, 35(OA)
Folate deficiency and malnutrition, 221(A)
Foreign body reactions and associated histological artefact due to bone wax, 14(OA)
Fructosamine in HbS and G6PD-deficient Saudi Arabs, 332(OA)

Gene therapy for haematological diseases, 82(*abs*)
Genes, human genome project and haematology, 79(*abs*)
Genetic regulation of haemoglobin, 84(*abs*)
Glucose-6-phosphate dehydrogenase-deficient Saudi Arabs, fructosamine estimations, 332(OA)
Gonadotropin immunoassay using a fully-automated benchtop analyser, 296(SC)
Gonorrhoea, urogenital, diagnosis by enzyme immunoassay, 312(OA)

Haematological diseases, gene therapy, 82(*abs*)
Haematological technique, modern: *55 years ago*, 180
Haematology
and human genome project, 79(*abs*)
molecular, 73(BU)
Haemoglobin, genetic regulation, 84(*abs*)
Haemophilus aegyptius and non-capsulate *Haemophilus influenzae* biotype III, outer membrane protein profiling to distinguish between, 307(OA)
Hagedorn-Jensen method of blood sugar estimation: *59 years ago*, 277
Hepatitis B core antigen, assays, evaluation of end-point sensitivity and performance, 341(OA)
Hepatitis B virus DNA, hybridisation analysis, 336(OA)
Hepatitis C virus-RNA, detection in blood donor population in Yorkshire, 215(OA)
Hepatitis markers in Malaysians with hepatocellular carcinoma, 177(SC)
Hepatobiliary disease, biological and clinical significance of serum 5'-nucleotidase, 119(OA)
Hepatocellular carcinoma, hepatitis markers, Malaysians, 177(SC)
High performance anion exchange chromatography method for assay of serum 1, 5-anhydro-D-glucitol, 18(OA)

Histological special stains, diagnostic value, 299(L)
Hong Kong, viral, mycoplasmal and chlamydial lower respiratory tract infections, cost and diagnostic value of serology, 9(OA)
Human genome project and haematology, 79(*abs*)
Hybridisation analysis for serum hepatitis B virus DNA, 336(OA)
Hypokalaemia and hypophosphataemia in hypomagnesaemia, 24(OA)
Hypomagnesaemia, and hyopophosphataemia and hypokalaemia, 24(OA)
Hypophosphataemia and hypokalaemia in hypomagnesaemia, 24(OA)

Immune function, and diet, 252(A)
Immunoassay of gonadotropins using a fully-automated benchtop analyser, 296(SC)
Immunoassays in drug abuse screening, unexpected cross-reactivities and other pitfalls, 136(RA)
Immunocompetence and dietary supplementation in housebound elderly subjects, 128(OA)
Immunocytochemistry
  in diagnosis of malignant melanoma, 44(RA)
  and enzyme histochemistry, quantification, 170(*abs*)
  of verruciform xanthoma, 28(OA)
Immunofluorescence, in *Chlamydia trachomatis* detection, comparison of two methods of slide preparation, 172(SC)
Immunohistochemistry and lectin histochemistry of microglia and macrophages of the human central nervous system: *thesis abstract*, 182
Immunomagnetic separation for *Esch. coli* 0157:H7 recovery, 207(OA)

Keratitis, infective, laboratory investigation, 65(A)

Lectin histochemistry and immunohistochemistry of microglia and macrophages of the human central nervous system: *thesis abstract*, 182
Legionella and potting soils, 375(L)
Leukaemia, prolymphocytic, potential diagnostic pitfalls caused by blood film artifacts, 371(SC)
Life-threatening diseases, antioxidants and nutritional supplements, 288(A)
Lipoprotein(a) and cholesterol as risk factors for coronary heart disease in elderly subjects, 114(OA)
Lower respiratory tract infections, viral, mycoplasmal and chlamydial, in Hong Kong, cost and diagnostic value of serology, 9(OA)
Lymph node micro-metastasis, investigation, including three-dimensional reconstruction, 109(OA)

Macrophages of the human central nervous system, immuno- and lectin histochemistry: *thesis abstract*, 182
Malaysians with hepatocellular carcinoma, hepatitis markers, 177(SC)
Melanoma, malignant, immunocytochemistry in diagnosis, 44(RA)
Mercury in biological samples, cold vapour atomic absorption spectrometry method for measurement, development: *thesis abstract*, 181
4-Methylumbelliferyl caprylate fluorescence test in conjunction with Rambach agar, in identification of *Salmonella* spp., 5(OA), 375(L)
Microglia of the human central nervous system, immuno- and lectin histochemistry: *thesis abstract*, 182
Molecular biology, diagnostic, 170(*abs*)
Molecular haematology, 73(BU)
Monocyte isolation by flow cytometer-monitored centrifugal elutriation, preparative tool for antibody-dependent cell-mediated cytotoxicity (ADCC) assays, 35(OA)
Monocyte procoagulant activity, development of microtitre plate chromogenic assay, 328(OA)

Neisseria gonorrhoeae, urogenital, diagnosis by enzyme immunoassay, 312(OA)
5'-Nucleotidase, serum, de-sialylated isoform, clinical and biological significance in hepatobiliary disease, 119(OA)
Nutrition, nutritional
  advice and support for individuals with incurable diseases, 271(A)
  and the ageing process, 278(A)
  diet and immune function, 252(A)
  disorders, folate and cobalamin deficiency, 221(A)
  role in osteoporosis, 228(A)
  supplements, antioxidants and life-threatening diseases, 288(A)

Oats and oat products in diet and health promotion, 260(A)
Osteoporosis
  and diet, 189(LA)
  and the role of diet, 358(A)
  role of nutrition, 228(A)
Outer membrane protein profiling to distinguish between *Haemophilus* spp., 307(OA)

Palliative care, nutritional advice and support, 271(A)
Potting soils and Legionella, 375(L)
Prolymphocytic leukaemia, potential diagnostic pitfalls caused by blood film artifacts, 371(SC)
Protein structure and function, implications for rational therapeutic design, 76(*abs*)
Proteus species, *in vitro* activities of antimicrobial agents against, 95(OA)

Race-related red cell alloantibody problems, 158(A)
Rambach agar in conjunction with the 4-methylumbelliferyl caprylate fluorescence test, in identification of *Salmonella* spp., 5(OA), 375(L)
Recombinant factor VIII, 86(*abs*)
Red cells, sedimentation: *59 years ago*, 176
Reticulocyte staining: *60 years ago*, 56
Rheumatic diseases, and diet, 189(LA)

Salmonella spp., identification with Rambach agar in conjunction with the 4-methylumbelliferyl caprylate fluorescence test, 5(OA), 375(L)
Sedimentation of red cells: *59 years ago*, 176
Shanghai Municipal Council laboratories, preparation of smallpox vaccine: *66 years ago*, 27
Sickle cell anaemia, fructosamine estimations, Saudi Arabs, 332(OA)
Smallpox vaccine, preparation as carried out in laboratories of Shanghai Municipal Council: *66 years ago*, 27
Special stains, histological, diagnostic value, 299(L)
Spongiform encephaloplathies, 168(*abs*)
Streptococcus milleri, rapid differentiation from other β-haemolytic group A, C, and G streptococci by simple screening tests, 1(OA)
Stroke, and diet, 189(LA)

Toxoplasma gondii, antibodies to in eluates from filter paper blood specimens, 104(OA)
Trace elements, dietary, putative role in coronary heart disease and cancer, 241(A)
Transcription factors, targets for new designer drugs, 147(RA)

Urogenital gonorrhoea, diagnosis by enzyme immunoassay, 312(OA)

Vaccine standardisation: *64 years ago*, 118
Verruciform xanthoma, immunocytochemical study, 28(OA)

Xanthine oxidase, circulating immune complexes, in normal subjects, 124(OA)

British Journal of Biomedical Science 1994; **51**: 385–386
